

Schap Laboratory Services, LLC

A2LA Accredited Calibrations

In response to our customer's growing requests, Schap Laboratory Services is now offering our customers A2LA Accredited Calibrations. We selected the following parameters that allow us to calibrate bench top testers that we manufacture as well as other makes and models.

- Temperature from 0 to 110°C (*CMC 0.022°C*)
 - **Hart Style Fogging Testers**
- Stroke Length up to 6 inches (*CMC 0.005 in*)
 - **Veslic, Seam Fatigue, Scott Crease Flex**, and similar
- Force up to 10 kg (*CMC 0.13 kgf*)
 - **Wyzenbeek, Seam Fatigue, Scott Crease Flex**, and similar
- Speed from 5 to 99,999 RPM (*CMC 0.34 rpm*)
 - **Wyzenbeek, Gakushin, Bally Flexometer, Veslic**, and similar
- Mass up to 2 kg (*CMC 0.80g*) and 2 to 220 kg (*CMC 0.13 kg*)
 - Various test weights

Call us at 616-846-6530 or to discuss your calibration needs and how we can help, or send us an email at info@schaplab.com.
